experience

Developer & Designer | Sept. 2019 - present

Scout Studio, Boston, MA

- Collaborate with an agile team of designers and developers to conduct research, design wireframes, and develop a website celebrating the 10 year anniversary of IDEA, a student venture accelerator
- Develop a marketing website using React, Gatsby, and Contentful CMS for Worksense, an analytics tool using data-driven decisions to promote diversity and inclusion in the workplace

Digital Design and Communications Co-op | Jan. - June 2020

International Energy Agency, Paris, France

- Produced interactive content and created company-wide standardized processes for developing responsive web graphics on the IEA website
- Designed charts, maps, brochures, and publication covers for use across digital and print

IT Web Developer Co-op | Jan. - June 2019

John Hancock, Boston, MA

- Designed and coded a self-service portal to assist with onboarding and provide technological support for company's 1000 Boston-based employees
- Served as sole designer and developer on multi-disciplinary team

Designer | Sept. 2018 - Dec. 2019

Spark Art Collective, Boston, MA

- Designed marketing collateral to encourage students to engage in fine arts events and exhibitions
- Created concrete branding guidelines for Spark, combining many different design styles over the organization's past years to standardize all content
